## Comercial

GIOVENZANA INTERNATIONAL B. V.

<http://www.giovenzana.com>

## Description

This is the leitmotif that has inspired Giovenzana International since 1952: the same family today, now at its third generation, that works in three main different fields: • Handling system • Lift - Elevator • Automation The R&D department, daily in contact with all the market needs and design-in of major corporations, provides safety solutions for those who use our products every day. The company sells to 75 countries and develops components with different applications in compliance with ISO 9001 Quality system and always keeping an eye on the environment, in compliance with ISO 14001. Giovenzana's products are used in areas where security is the key, for this reason the most important matter for our company is the operators' safety! It means European and International standards, certified products and brand awareness.

## Offer & Request

## Automação

This is the leitmotif that has inspired Giovenzana International since 1952: the same family today, now at its third generation, that works in three main different fields:

- Handling system
- Lift - Elevator
- Automation

The R&D department, daily in contact with all the market needs and design-in of major corporations, provides safety

solutions for those who use our products every day. The company sells to 75 countries and develops components with different applications in compliance with ISO 9001 Quality system and always keeping an eye on the environment, in compliance with ISO 14001. Giovenzana's products are used in areas where security is the key, for this reason the most important matter for our company is the operators' safety! It means European and International standards, certified products and brand awareness.
