

ELCHIM SPA

<http://www.elchim.it>

Description

70years ago, Elchim, first in Italy, introduced the professional hairdryer on the market and opened up the door to the development of a set of tools (dryers, styling irons and brushes) designed specifically for hairdressers to let them better satisfy their customers.

Since its inception, the company worked hard to develop more and more technologically advanced products to support the hairdressers in their daily mission. The payoff "Healthy hair for your beauty" condenses in a few words all those years and years of research which allowed Elchim to develop efficient and ergonomic products, designed in mind with both the health of the hairstylists and the beauty of the hair, from the styling stage onwards.
