

Anna Innocenti

Marketing Manager

TER Tecno Elettrica Ravasi srl

<http://www.terworld.com>

Description

Established in Italy in 1962, the brainchild of its founder, Sergio Blasi, TER is a reliable and qualified reference in the field of control, supervision and safety equipment for industrial lifting and handling machinery, wind energy and stage technologies. TER exports to 69 countries around the world and manages its customers through a network of agents and 17 distributors. All of its products have always been manufactured in Italy, to guarantee excellence of materials and greater controls on products and components. TER obtained the UNI EN ISO 9001:2008 certification back in 1993 and got the cULus product certification for the US and Canadian markets, and EAC for the Russian market.
