

Alessandro Pagano

Sales Engineer

sepra

<http://www.sepra.it>

Description

Since 1990, SEpra sale components for water treatment and process fluid management equipment. We have a lot of experience fluid separation using cross flow filtration technology in various industrial process applications (mechanical, ED paint, textile and petrochemical,...)

Organization Type

Areas of Activities

Machineries

Metallurgy /Metalworking

Automotive

Oil & Petrochemical

Engineering

Offer & Request

Cross flow filtration systems for waste fluids recovery in Metallurgy /Metalworking

- recovery of release fluid
- degreasing bath treatment
- recovery metals (gold, silver,...) from wastewater

Cooperation Offered

1. Technical collaboration
2. Industrial Collaboration
3. Clusters Partnership

Cooperation Requested

1. Commercial Collaboration
2. Clusters Partnership

Offer & Request

Cross flow filtration systems for waste fluids recovery in Automotive

- recovery of paint cataforetic anaphoretic
- recovery water paint
- degreasing
- production of water demineralized

Cooperation Offered

1. Technical collaboration
2. Industrial Collaboration
3. Clusters Partnership

Cooperation Requested

1. Commercial Collaboration
2. Clusters Partnership

Offer & Request

Cross flow filtration systems for fluid in Oil & Petrochemical

- Breaking emulsions and recovering oil and surfactant
- Produced water treatment - oil & gas industry

Cooperation Offered

1. Clusters Partnership

2. Industrial Collaboration

3. Technical collaboration

Cooperation Requested

1. Clusters Partnership

2. Commercial Collaboration
