Description

CyT Connect is a virtual platform that facilitates the contact between businesses, institutions, universities and researchers.

In [CyT Connect](#) researchers and research institutes share their innovations and develop capacities. Companies and institutions searching for specific solutions post their technological requirements. Researchers and companies interested in the publications of other users get in contact through the platform.

The platform works **internationally** and the ads are **anonymous and free**. Costs are generated only when contact is established (fixed fee).

In CyT Connect you can find:

- innovative products, high technology services and know how;
- specific capabilities for new developments;
- patents or start-ups
- investors

Technological offerings cover all areas of knowledge.

Offer

Virtual Platform for Technology transfer

CyT Connect is a virtual platform which enables the commercialization of products, innovative technology, know how, patents, finding experts, counterparts and/or potential investors to develop a venture company or entrepreneurship.

Our goal is to facilitate the contact and create synergies between businesses, institutions, universities and research and services centres regionally and internationally.
