PIAZZALUNGA SNC DI MARCO E MAURO PIAZZALUNGA

<http://www.piazzalunga.com>

Description

We produce power transmission components such as variable speed pulleys, torque limiters, couplings, slide motor bases.

We realize CUSTOM MADE products.

We have dealers and distributors all over the world, especially in Europe. We want to improve our business and increase our presence in the international market.

We usually deal with dealers and with OEM belonging to various industrial fields such as: food and beverage processing, packaging, paper industry, machine tools, bread machinery, agricultural, wine etc..

We can supply standard products from our product range or custom made products realized in order to satisfy your need.

We can help you to work better and to prevent machine damages and consequent unproductive time.
